RE: Notice of *Ex Parte* Presentation
(WT Docket Nos. 10-119, 98-182; RM-9222, RM-10762, and RM-10844)

Dear Ms. Dortch:

On October 12, 2016, Bradley C. Trenkle, Director, Outdoor Business Segment of Garmin International, Inc. ("Garmin"), who participated by telephone; Jason Rademacher, of this office; and I met with Brendan Carr, Legal Advisor – Wireless, Public Safety and International to Commissioner Ajit Pai.

In the meeting, we discussed Garmin's manufacture of combination FRS/GMRS radios and the power levels Garmin has advocated in this proceeding. We discussed Garmin's opposition to narrowbanding GMRS channels. Finally, we discussed the operation of simple voice inversion features on Garmin's outdoor devices and how the features assist public safety personnel, who have told Garmin the features allow them to focus in on the communications related to their operations and filter out communications that may make it difficult to obtain desired messages.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in each of the above-referenced dockets. A copy of this letter is being provided by email to Mr. Carr. If you have any questions about this filing, please contact me.

Very truly yours,

A handwritten signature in dark ink, appearing to read "M. Anne Swanson".

M. Anne Swanson
Counsel to Garmin
